

**CR Number:** 2555

**External Reference:** WA Bill Goforth GofortB@wsdot.wa.gov - SAFER CR 108

**Category:** Change to file size limit

**Component:** CVISN Architecture and Standards

**Synopsis:** The maximum transaction size should be reduced from 5000 records to 2000 records for the T0028 IRP Registration (Cab Card) Output Transaction and the T0031 MCMIS Safety and Census Output Transaction.

**Status:** Recommended

**Disposition:** [2006-03-30] Recommended - further discussion required.

**Description:** The maximum transaction size should be reduced from 5,000 records to 2,000 records for the T0028 IRP Registration (Cab Card) Output Transaction and the T0031 MCMIS Safety and Census Output Transaction. Allowing the higher limit may result in files with size 50Mb or larger, which are difficult to manage and process.

[2004-05-07] Volpe will address in June 2004 release of SAFER.

[2006-03-27] Presented at the 2006-03-23 ACCB meeting.

This CR, originally requested by WA, was recommended for FMCSA approval in March, 2004, but not scheduled for implementation. The states were asked if this change was still desired. Volpe said that a benefit of having a smaller file size would be faster aggregate processing time. WA suggested limiting the .zip file size to a megabyte. NE said they would prefer to receive fewer, larger files. Further discussion is needed, linked to the general issue of data volume.

Impact:

Update SAFER ICD to reflect this business rule.

**Fix:**

**Comment:**

**Attachment names:** NE's T0028 files -- Maybe we need IRP Weight Groups.doc
